

Robyn Ruobing Chen

Senior UX Designer · Enterprise & AI-Powered Products rochenc19@gmail.com · 401-390-1415 · ruobing.design

Senior UX designer with 8+ years of experience across enterprise and consumer products, including 2 years designing AI-powered and agentic tools. Designed for AWS's first agentic migration product, serving 1,000+ enterprise customers including Fortune 500 companies. Defined LLM output principles and AI interaction patterns across a cross-functional team. Track record of owning the full design workflow (concepts, wireframes, prototypes, specs, QA) and driving measurable impact through research-led, user-centered design.

EXPERIENCE

Amazon Web Services — AWS Transform Sep 2024 – Present
Senior UX Designer, Migration & Modernization

- Designed for **AWS's first agentic migration tool**, reducing SQL Server modernization time from months to weeks and achieving **5× acceleration** with a **20% project completion rate within 6 weeks**.
- Owned full design workflow from wireframes through high-fidelity prototypes, spec delivery, and QA with 10+ engineers and 3 PMs; led design sprints, critiques, and user research with **15 internal users and 2 external AWS client companies**, and bug bash events with AWS Partner SAs prior to launch.
- Partnered with PMs and engineering to define **agentic behaviour principles and content structure guidelines**; improved agentic user interactions through usability testing, iterating on AI transparency patterns and trust signals.
- Accelerated prototyping and research using **AWS internal tooling** to efficiently produce working prototypes and make quicker decisions—leveraging AI automation for script generation and interview analysis.
- Created **2 agentic consulting experience vision designs** for cross-org partner teams, defining future-state interaction models for AI-driven enterprise workflows.

Amazon Web Services — Migration Hub Feb 2022 – Sep 2024
UX Designer

- Led interaction design for **4 major Migration Hub features** (permissions, customization, monitoring, approval workflows), aligning cross-functional stakeholders around user needs and business goals.
- Created and ran **bi-annual longitudinal CSAT/SUS surveys** (76 enterprise respondents)—uncovering that "Execute planned migration" had the highest importance (4.22/5) but lowest satisfaction, directly influencing the 2024 product roadmap.
- Designed and launched a **beta migration help assistant** connecting internal AWS resources directly with customers; showcased at **AWS Migratapalooza** as a featured innovation.

Citizens Bank Sep 2020 – Dec 2021
UX Designer, Mobile App

- Led end-to-end interaction redesign of Credit Card UX for the Citizens Bank iOS/Android app—product reached **1M+ Android downloads, 748K+ iOS App Store ratings** and a **4.8-star rating**.

Infosys Digital Jul 2018 – Aug 2020
Senior Experience Designer, B2B Clients

- Designed enterprise digital products for **Mercedes-Benz, Verizon, and Citi Bank** using lean UX methodology—collaborated directly with client stakeholders and engineering to prototype, critique, and ship MVP solutions.

Kohler Co. Sep 2016 – Dec 2017
Industrial Designer, Showering & Bathing

- Designed Traverse® shower surround product line; contributed to immersive bathing experience concepts through physical and digital prototyping.

EDUCATION

Rhode Island School of Design 2013 – 2018
BFA Furniture Design & Manufacturing · Strategic Design Program

Tongji University 2010 – 2013
BS Industrial Design

SKILLS & TOOLS

Design	Interaction design, wireframing, prototyping, visual design, design systems, accessibility
Research	Usability testing, CSAT/SUS surveys, journey mapping, metrics & analytics
Tools	Figma, UserZoom, Jira, Microsoft 365, gen AI tools, vibe coding tools
Languages	English (fluent) · Mandarin Chinese (native)
